

VEGA VIA FERRATA

– ACTIVITY · VIA FERRATA VEGA –

Choose between a pleasant trip along the mountain staircase of wood, or make an exciting climb at one of the Via Ferrata trails to the top of the Ravnfloet!

Hiking along the mountain staircase of wood at the Ravnfloet, on the northwest side of Vega, where the beautiful Sjøla mountain rises from the sea, our peak starts!

The path from the parking at Sundsvoll goes through an exciting landscape. After about 400 meters in slaughtering terrain, we follow the wooden stairway 450 meters up the mountain and last step on the path of stone.

Ravnfloet Via Ferrata

Via Ferrata means a path of iron. You hook yourself onto the thick wire that is securely attached to the mountainside, and ascend safely using natural holds and steps on the mountainside. If you want to challenge Via Ferrata, there are two different trails.

Comfortable shoes, warm and windproof clothing.
All safety equipment inc.

Capacity: 1-each group 38 Groups & individuals
Opened 2019
