

EXCURSION TO SVARTISEN GLACIER

STØTT - TOP OF HELGELAND

Join us on an unforgettable day excursion to Svartisen glacier! Støtt is the perfect base for visiting the glacier and our boats speed towards the mainland where the glacier is located. We can also drive a car to Holand and take the scheduled local boat over to the Svartisen area.

We walk about one hour up to the glacier and take a closer look at ice formations, the colours etc. You will hear the stories the guide are telling about the glacier and the national park Lakko. Do you want to walk on the glacier? We have all the equipment you need, but you should also bring a backpack, warm clothes, sunglasses and gloves. This adventure needs to be prebooked in advance.

Upon departing from STØTT Top of Helgeland, you will have a lunch pack included in the price.

- Did you know that Svartisen, which covers 370 square meters, is the second-largest glacier in mainland Norway?
- The highest point of the glacier is 1564 m.
