

HUNTING FOR THE NORTHERN LIGHT

STØTT - TOP OF HELGELAND

When the Northern Lights dance across the sky, with curtains or rays of greenish light shimmering – strangely distant and yet close enough to touch – you may feel yourself transported beyond time and space. At Støtt, you need only step outside at the right moment to see the Northern Lights. Moreover, here at Støtt you can immerse yourself in the heritage of a proud, vibrant fishing community.

Our guide takes you to the museum to watch an informative film about the Northern Lights. Afterwards, we invite you to join us on an evening hunt for the Northern Lights. We will walk on showshoes to the base camp we'll light a fire, enjoy a hot drink and continue scouting the skies for the lights. There will be opportunities to capture some great photographs. Naturally we can give no guarantee that the Northern Lights will actually appear – but we do promise great stories and a guided trip into the night. The duration will depend on the weather.
