ABOUT

During the protected nesting season from June 1st to July 1st, we offer eider nesting tours on Lånan. This is when the eiders are nesting, and we have between 500 and 1,000 birds staying with us.

All visits to the island must be guided by a bird warden. We know where the birds nest, and we guarantee a unique close-up experience. You'll get to feel genuine eiderdown and see the meticulous work that goes into cleaning it—down that's used in the world's finest eiderdown duvets.

We share our story, talk about what it's like to work as a bird warden, and invite you to see our exhibition in the old barn. The trip ends with coffee and «lefse» served in a bird warden's home.
