ABOUT

Part of the Vega Archipelago World Heritage Site, Skogsholmen offers accommodation and dining in a peaceful and picturesque setting. Here, visitors can experience authentic coastal life and enjoy local cuisine in a relaxed atmosphere. Skogsholmen is perfect for those looking to explore the Vega Islands while staying close to nature.

The guesthouse has a history dating back to 1940 when the building was completed as a school and boarding house. The history is embedded in the walls, and a magnificent photography exhibition takes you on a journey from then to now.
