### ABOUT

Adventure Helgeland is a local tour operator based on the outer edge of the Helgeland archipelago. We create tailor-made activity experiences for small groups and individual travellers — always with nature, culture, and people at the heart of what we do.

Throughout the year, we invite our guests to explore everything from RIB safaris and island hopping to kayaking, fishing trips, guided hikes, and cultural encounters in collaboration with local communities.

By combining activities with local cuisine, accommodation, and transport, we create seamless and sustainable travel experiences that allow you to fully immerse yourself in the coast and its rhythm.

We know the islands, the tides, and the stories — and we ensure safe operations, high quality, and flexibility at every step. Our experiences are designed for curious and adventurous travellers seeking something genuine, meaningful, and out of the ordinary.
