ABOUT

Step into a living garden filled with history, scents, and flavours at Hildurs Urterarium.

Hildurs Urterarium features a rich and diverse herb and display garden with a long history, where every corner tells a story. As you walk through the garden together with your guide, you will discover a vibrant collection of herbs, flowers, and plants — all carefully cultivated and used in the kitchen.

The garden is divided into themed areas, including culinary herbs, medicinal plants, and traditional varieties, creating a sensory experience that changes throughout the season.

During the walk, you will learn about the use of herbs in food, medicine, and local traditions, while enjoying the peaceful surroundings and colourful landscape.

A guided garden walk at Hildurs is a relaxing and inspiring experience where nature, knowledge, and flavours come together.
