## ABOUT

What makes a landscape magical? How does nature affect us – and how do we affect it?

On this unique walk, we take you along the powerful waterfall that was saved from development after a public referendum in 1982. Through poetic reflections and nature's stories, we invite you to see the landscape with new eyes. Perhaps you will experience that nature has its own voice – and perhaps you will hear what it has to say.

Enjoy a different kind of nature experience – join a geopoetic walk!
