Distance from town

67 km (Mo i Rana)

ABOUT

RAUS Bryggeri offers a combined brewery tour and tasting experience located at Nesna on the Helgeland coast.

Participants are guided through the brewery facilities, gaining insight into production methods, ingredients, and the development of the brewery's products. The experience includes a structured tasting of four selected beers, where each product is presented with its story and flavour profile.

The brewery also features a bar, outdoor seating, and a local shop, creating a complete and social setting for group visits.

This experience is well suited for groups, corporate programmes, and travellers seeking authentic local food and beverage experiences combined with storytelling and insight into regional production.
