- 2 lunches, 1 breakfast, 1 dinner
- Professional guides
- A true wilderness experience

Not included

- Tent (can be rented from us)
- Sleeping bag and sleeping pad
- Personal clothing and equipment

ABOUT

Join us on a river journey deep into the Auster-Vefsna Nature Reserve — one of Nordland's most untouched and spectacular wilderness areas.

Here, the Auster-Vefsna River carves its way through ancient forest, narrow gorges, and powerful rapids in a landscape that feels straight out of Alaska. With evocative names like *Amerikasvingen*, *Helvete*, and *Tjuvhusholten*, every bend in the river holds a story.

Our experienced guides lead you safely through pristine rapids surrounded by silence and old-growth forest. When the day on the river comes to an end, we set up camp on a secluded riverbank. The guides light the fire and prepare dinner while you try your luck fishing or relax with a warm drink in hand.

After a good night's sleep under the open sky and breakfast by the fire, we continue downstream toward Trofors. More rapids await, along with lunch in the wild and the dramatic Kløvimo Gorge — and, when conditions allow, the mighty rapid known as *Ragnarokk*.

This is the only multi-day rafting expedition of its kind in Scandinavia — a true wilderness adventure you simply won't find anywhere else in Europe.
