### Distance from town

25,3 km (Brønnøysund)

### ABOUT

SeilNorge specialises in customised sailing experiences for teams and groups, set in the spectacular island landscape of the Helgeland coast.

With over 6,500 islands, islets, and skerries, Helgeland offers ideal conditions for sailing, exploration, and shared experiences at sea.

Programmes are tailored to each group and combine sailing with teamwork, learning, and outdoor activities such as hiking, fishing, and cultural visits. Participants actively contribute on board, guided by professional skippers, learning navigation, safety, and cooperation in practice.

Routes are flexible and adapted to weather, group goals, and preferences, often including highlights such as the Vega archipelago, Torghatten, and small coastal communities.

The experience is built around teamwork, communication, and shared challenges, making it highly suitable for incentive travel, leadership development, and corporate events — all set in one of Norway's most authentic coastal landscapes.
