Distance from the nearest town

28 km (Sandnessjøen)

Dining options

Café

Total capacity

15 - 25

Environmental certifications

Eco-lighthouse Certified

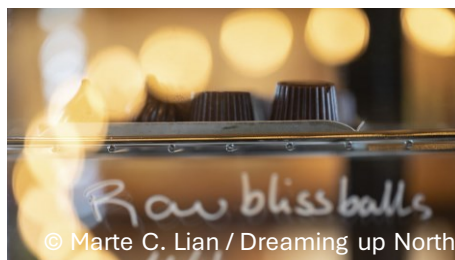

ABOUT

Heidi's Chocolate Dream – Sjokoladebrygga is likely the world's smallest chocolate factory, idyllically located on a historic dock on the island of Dønna. Run by Heidi, who has developed handmade, organic chocolate that's both gluten- and lactose-free, using exclusive Criollo cocoa.

During the summer months (June–August), the dock opens as a café where groups can taste chocolate products, energy bars, or take part in chocolate-making workshops and guided factory tours. The venue is eco-certified and emphasizes reuse of original materials and low-impact nature tourism.

Sjokoladebrygga is ideal for small groups (around 15–25 people) and is recommended as part of an outing that includes a hike up Dønnamannen or a guided boat trip along Helgeland's scenic archipelago.

For tour operators, Heidi offers custom group visits and workshops outside the main season. Combining spectacular views, authentic coastal culture, and sustainable products, this is a unique addition to any Helgeland itinerary. Please book group visits in advance.
