12+

Included

- Guide
- Fishing rod
- Fish soup
- Bottle of water

ABOUT

TilSvartisen offers a guided fishing excursion aboard *Isprins* in Nordfjorden, adjacent to the Svartisen glacier.

The experience combines scenic fjord cruising with hands-on fishing in clear Arctic waters, framed by dramatic mountain landscapes and glacier views. Guests participate actively in the fishing process, creating engagement and authentic coastal interaction.

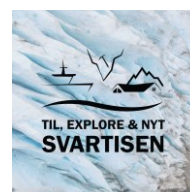

When conditions allow, the catch is prepared on board as fresh fish soup, adding a culinary element that enhances the overall experiential value.

This product is well suited for cruise guests, incentive groups, soft-adventure travellers, and curated Arctic itineraries seeking a balanced combination of activity, scenery, and local food culture.

Cast your line beneath the glacier and taste the fjord at its freshest.
