ABOUT

TilSvartisen offers an 18-seat shuttle bus service designed to support excursion logistics in the Svartisen region.

The service provides efficient and coordinated transport for activity programmes requiring ground transfers. Its capacity makes it well suited for small groups, cruise excursions, and tailored itineraries.

The shuttle service can also be combined with the TilSvartisen waffle buffet, creating added experiential value and enhancing the overall guest programme.

A practical and flexible transport solution integrated into the TilSvartisen activity portfolio.
